The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of Little Green Pharma Ltd (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 30 September 2025.

Directors

The following persons were Directors of Little Green Pharma Ltd during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Mr Michael D Lynch-Bell	Independent Non-Executive Chair
Dr Neale Fong	Independent Non-Executive Director
Mr David Fenlon	Independent Non-Executive Director (Resigned 21 August 2025)
Mr Paul Long	Managing Director
Ms Fleeta Solomon	Executive Director
Mr Angus Caithness	Executive Director

Principal activities

During the financial half-year the principal continuing activities of the Group consisted of:

- the cultivation of medicinal cannabis, procurement of raw materials and production of medicinal cannabis medicines;
- the supply and distribution of medicinal cannabis products into Australia and Europe;
- the development of a psychedelics business including sponsoring a clinical trial into the treatment of refractory depression with psilocybin assisted therapy, construction of a psilocybin mushroom cultivation facility, and establishment of a psychedelic treatment clinic.

Review of operations

The loss for the Group after providing for income tax amounted to \$926,000 (30 September 2024: \$3,457,000).

The Group's half-year financial results included record revenues and positive Adjusted EBITDA and operating cash flows, demonstrating the effectiveness of its House of Brands strategy and prudent cost management. Meanwhile, market developments in Germany, the United Kingdom and France validated the Group's long-held strategy of accessing high and low regulatory barrier territories across Europe.

Key financial outcomes

- **Revenue:** The Group's revenue for the half-year was \$19,182,000 up from \$17,513,000 in the prior comparative period. This performance was predominately driven by sales growth in flower within international markets.
- **Adjusted EBITDA (Non-IFRS Measure):** For the half-year the Group had an Adjusted EBITDA of \$2,637,000 up from an Adjusted EBITDA of \$268,000 in the prior comparative period. This performance was driven primarily by sales growth and early signs of economies of scale. Refer to the Segment Note for reconciliation to statutory results.
- **Net tangible assets:** The Group's net tangible assets at the end of the half-year were 24.26 cents per share up from 24.05 cents per share at 31 March 2025. The movement was predominately driven by depreciation and foreign exchange movements on overseas assets.
- **Debt:** The Group's debt remained low at the end of the half-year at \$3,454,000 up from \$3,085,000 at 31 March 2025.
- **Cash position:** The Group's cash position at the end of the half-year was \$2,300,000 down from \$2,376,000 at 31 March 2025. The Group's operating cash inflow was \$230,000 down from a cash inflow of \$738,000 in the prior comparative period.

Key operational outcomes

- **European growth:** The Group achieved continued revenue increases in Germany and the United Kingdom as the German market continued its rapid growth following legalisation and the Company successfully launched its own-brand CherryCo range in Germany. The Company continues to monitor legislative proposals which may impact telemedicine and pharmacy postal distribution availability in Germany. In Spain, a relatively narrow initial medicinal cannabis regulatory framework has been introduced with prescribing and dispensing limited to hospitals and flower products excluded, but with extracts/oils permitted and no limits on indications. The Group also remained the largest commercial supplier in France during the post-trial period. Recent political disruption in France has delayed implementation of the new medicinal cannabis regime however LGP continues to benefit from continuation of commercial shipments for pilot patients during the transition period. In Poland, LGP submitted a new dossier for LGP Denmark flower which is expected to be granted by in the second half of calendar year 2026.
- **Health House:** The Group acquired the Health House medicinal cannabis distribution business in February 2025, and has moved to rapidly grow its customer base trading on its reputation as a credible and more cost-effective alternative to larger distributors including by launching a new wholesaling and 3PL service on the East Coast.
- **Research & Innovation:** The Company continues to supply products into clinical studies for the treatment of various chronic conditions, with the publication of the 12-month results from the Company's QUEST Initiative demonstrating long-term relief for a wide range of chronic conditions.
- **Reset clinical trial:** The Reset-sponsored psilocybin clinical trial, in partnership with the University of Western Australia and the Harry Perkins Institute, has shown encouraging results and enabled the Company to validate its clinic treatment protocols. The trial has now finished with the final patient follow-up completed in November and trial publication results expected in the first half of calendar year 2026.
- **Restructuring project:** Post half-year period the Company commenced an automation and offshore driven headcount reduction via a voluntary redundancy program in Australia with deferred payouts smoothing cashflow requirements over the coming periods.

Regulatory and corporate updates

- **Regulatory updates:** The Therapeutic Goods Administration announced a significant regulatory review of medicinal cannabis quality and safety in Australia, expecting to result in a range of reforms expected to benefit suppliers like LGP with strong regulatory and quality inhouse capacity and experience. The review and implementation of regulatory outcomes is anticipated to be completed within the first half of calendar year 2026.
- **Remuneration report vote:** the Company's remuneration report was approved at the Company's Annual General Meeting after it was voted down in the prior year.
- **Board update:** Mr David Fenlon resigned from the Board on 21 August 2025.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the financial half-year.

Note 1. General information

The financial statements cover Little Green Pharma Ltd as a Group consisting of Little Green Pharma Ltd and the entities it controlled at the end of, or during, the half-year. The financial statements are presented in Australian dollars, which is Little Green Pharma Ltd's functional and presentation currency.

Little Green Pharma Ltd is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Little Green Pharma Ltd

13A Bedbrook Place
Shenton Park
Western Australia 6008

A description of the nature of the Group's operations and its principal activities are included in the Directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of Directors, on 20 November 2025.

Note 2. Material accounting policy information

These general purpose financial statements for the interim half-year reporting period ended 30 September 2025 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 31 March 2025 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

The Company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Going concern

These consolidated financial statements have been prepared on the going concern basis which assumes that the Group will be able to realise its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Directors believe that the entity will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report based on forecast cash flows which indicates that the Group will have sufficient cash flows to meet all commitments and working capital requirements. The cash flow forecast is dependent on the Group achieving forecast targets for revenue, costs of production and overheads.

Comparatives

The amounts have been re-presented and comparatives have been realigned where necessary to be consistent with the current year presentation. There was no impact on the profit or loss, net assets or equity.

Note 7. Biological assets

	30 Sep 2025 \$'000	31 Mar 2025 \$'000
<i>Current assets</i>		
Biological asset - at fair value	2,087	1,878

In the current period, the biological assets were approximately 50% complete (31 March 2025 - 49%) as to the next expected harvest date. The average number of days from the point of propagation to harvest is 89 days. The weighted average grams of dry cannabis expected to be harvested from a cannabis plant is 125 grams (31 March 2025 – 125 grams).

Key estimate and judgement:

Note 7. Biological assets (continued)

Biological assets are classified as Level 3 on the fair value hierarchy and are determined using the most recent market transaction price. The following inputs and assumptions being subject to significant volatility and uncontrollable factors, which could significantly affect the fair value of the biological assets in future periods:

- plant waste – wastage of plants based on various stages of growth;
- yield per plant – represents the weighted average grams of dry cannabis expected to be harvested from a cannabis plant, based on historical yields;
- cannabinoid yield per gram – represents the weighted average cannabinoids expected to be obtained from a dry gram of cannabis, based on historical yields;
- selling price, less costs to sell – based on estimated selling price per gram of dry cannabis based on historical sales and expected sales; and
- percentage of costs incurred to date compared to the total costs to be incurred (to estimate the fair value of an in-process plant) – represents estimated costs to bring a gram of cannabis from propagation to harvest.

A 20% increase or decrease in the estimated yield of cannabis per plant would result in an increase or decrease in the fair value of biological assets of \$417,000 at 30 September 2025 (31 March 2025: \$376,000). A 25% increase or decrease in the average selling price per gram less cost to sell would result in an increase or decrease in the fair value of the biological assets of \$521,000 at 30 September 2025 (31 March 2025: \$470,000). At harvest, the estimated average fair value of a gram of cannabis was \$1.95 (31 March 2025: \$2.37).

Note 8. Inventories

	<u>15,506</u>	<u>13,829</u>

Cost of inventories sold to customers amounting to \$9,257,000 was recognised as an expense during the half-year (30 September 2024: \$8,347,000).

Accounting policy:

Harvested cannabis is transferred from biological assets at its fair value at harvest less costs to sell, which becomes deemed cost. Any subsequent post-harvest costs are capitalised to work in progress. Inventory classified as work in progress consists of harvested or purchased cannabis intended to be processed into oil or sold as flower. The cost of inventory is determined using the average cost basis.

Note 9. Property, plant and equipment (continued)

Accounting policy:

Property, plant and equipment is depreciated on a straight line basis over the lesser of the assets estimated useful life or its lease term as per below:

- Land – not depreciated
- Buildings – 40 years straight line
- Greenhouses – 20 years straight line
- Production equipment – 15 years straight line
- Office leasehold improvements – life of the lease
- Office equipment – 5 years straight line

Key estimate and judgement:

Estimation of useful lives of assets

Depreciation methods, useful lives and residual values are reviewed at each reporting date. Changes can occur due to things such as technical innovations, obsolescence or abandonment of non-strategic assets.

Impairment

The Group assesses impairment of property, plant and equipment at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations whereby management is required to make significant judgements concerning the identification of impairment indicators, such as changes in the expectations of growth, share price performance and other factors that may indicate impairment. Where an indication of impairment exists, a formal estimate of the recoverable amount is made at the reporting period. No impairment indicators were identified by management during or as at the reporting period.

Reconciliations

Reconciliations of the written down values at the beginning and end of the current financial half-year are set out below:

	Product development \$'000	Patents and trademarks \$'000	Software \$'000	Pharmaceutical Quality System \$'000	Goodwill \$'000	Total \$'000

At 30 September 2025	<u>2,671</u>	<u>117</u>	<u>78</u>	<u>281</u>	<u>856</u>	<u>4,003</u>

Accounting policy:

Intangible assets are amortised on a straight line basis over the assets estimated useful life:

- Product development costs – 5 years straight line
- Patents and trademarks – 20 years straight line
- Software – 2 to 5 years straight line
- Pharmaceutical Quality Systems – 10 years straight line

The Company's Pharmaceutical Quality System represents the policies, procedures and standards required to comply with Good Manufacturing Practices ('GMP').

Key estimate and judgement:

The capitalisation of product development projects are based on management's judgement that technological and economic feasibility have been confirmed, this usually occurs when a project has reached a defined milestone according to an established project management model. In determining the amounts to be capitalised, management makes assumptions regarding the expected future cash generation of the project, discount rates to be applied and the expected period of benefits.

The Group has the following borrowings:

Note 11. Borrowings (continued)

- The property loan is due for repayment on 30 July 2027. The loan has a variable interest rate and is secured by the land and buildings held by the Company in Australia which has a carrying value of \$3,369,000 (31 March 2025: \$3,430,000). The current effective interest rate is 7.63%.
- The equipment finance lease is secured by a chattel mortgage over the underlying equipment held by the Company. It has a five year term and carries a fixed interest rate of 7.68%.
- The electricity loan is unsecured, has an effective interest rate of 4.4%, and is repayable over the life of the loan ending 31 October 2028.
- The inventory financing facility of \$3,000,000 has a variable interest rate of 5.24% per 90 day drawdown and is secured by the purchased inventory.
- The overdraft facility of \$1,200,000 from Spar Nord A/S expires 1 June 2030 and has a variable interest rate of 5.22% and is secured by the Group's Danish property complex.

The Group has complied with the financial covenants of its borrowing facilities during the reporting period.

For the majority of the borrowings, the fair values are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short-term nature.

Total secured liabilities

The total secured liabilities are as follows:

	30 Sep 2025 \$'000	31 Mar 2025 \$'000
Property loan	1,857	1,857
Equipment financing	867	1,067
Bank overdraft	437	-
Inventory financing	139	-
	<u>3,300</u>	<u>2,924</u>

Assets pledged as security

The Property Loan is secured by a first mortgage over the Group's land and buildings at its Western Australia production site with the Equipment Financing being secured by the underlying equipment. The inventory financing facility is secured by the purchased inventory and the overdraft facility is secured by the Group's Danish property complex.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

Note 12. Share capital (continued)

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back.

Note 13. Commitments

The Company is one year into a three year off-take agreement for approximately one tonne of cannabis flower per annum.

Note 14. Related party transactions

On 21 August 2025, post approval at the AGM, 5,200,000 options were granted to KMP's with an exercise price of \$0.1725 and expiry date of 31 July 2028. The options were valued using the Black-Scholes model with a volatility of 80% and a grant date fair value of \$0.0495. In addition, a further 2,000,000 options were granted to employees under the same terms.

Note 15. Operating segments

Identification of reportable operating segments

The Group is organised into two operating segments: Australia and Europe (cultivation, production and distribution of cannabis products to Australian and European customers). These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The CODM reviews Adjusted EBITDA (earnings before interest, tax, depreciation, amortisation, share based payments, research and development incentives, write offs and net change in fair value of biological assets). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

The information reported to the CODM is on a monthly basis.

Intersegment transactions

Intersegment transactions were made at market rates. The Australian operating segment purchases medicinal cannabis flower from the European operating segment. Intersegment transactions are eliminated on consolidation.

Intersegment receivables, payables and loans

Intersegment loans are initially recognised at the consideration received. Intersegment loans receivable and loans payable that earn or incur non-market interest are not adjusted to fair value based on market interest rates. Intersegment loans are eliminated on consolidation.

Note 16. Events after the reporting period

No matter or circumstance has arisen since 30 September 2025 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

In the Directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the Group's financial position as at 30 September 2025 and of its performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of Directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Little Green Pharma Ltd

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Little Green Pharma Ltd (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 September 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the Group's financial position as at 30 September 2025 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 September 2025 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
